

Launch Post Guide

Quest 3 • Run your first marketing push • +60 XP

The shape of a good launch post

1. What you built, in one sentence a stranger understands.
2. Where it helps - the moment your user feels the pain.
3. An honest screenshot or 20-second clip.
4. The invitation: ask the garden to try it and water it.

Where to post

- [] The Sproutly garden stage - request a pitch spot.
- [] One community where your users already hang out.
- [] Your own list, even if it is eleven people.

The golden rule

Ask for feedback, not applause. Feedback compounds.
