

One-Pager Template

Quest 1 • Launch a simple website • +40 XP

1. Hero headline

One sentence that says what your project does and who it is for.

Example: RankKit helps indie makers climb the charts.

2. The three things it does

[] Benefit one - lead with the outcome, not the feature.

[] Benefit two - keep each line under twelve words.

[] Benefit three - if you cannot cut to three, cut harder.

3. One screenshot

A single, honest screenshot beats a carousel. Crop to the moment of value.

4. Call to action

One button, one verb: Try it, Join the beta, Water this plant.

Placeholder guide generated for the Sproutly design prototype.
